

CALLMASTER SYSTEM

When it comes to fire and security, trust the leading cable management company in the UK

Our Callmaster mini trunking, conduit and accessory boxes are designed for emergency applications including call points, smoke and heat detectors, panic alarms, warning lights, sounders and emergency stops.

We have 2 systems available, mini trunking and conduit:

- Pre-punched holes in MMT2 mini trunking every 200mm for ease of installation
- Mini trunking compatible with Firefly fire safety clips
- No need for cable glands and shrouds
- Available with one or two entries for terminal or through wiring
- Suitable for single or twin cable runs to each entry
- Callmaster accessory boxes come complete with both internal pot retainers for mineral insulated (MI) cable and cable clamps included for use with conventional and fire performance cable
- Compatible for use with MMT2 and MMT3 red or white mini trunking

NEW MMT3 MINI TRUNKING AND 20MM CONDUIT

Due to popular demand, we've added some new additions to the range. Turn over for more details.

Firefly safety clips, saving lives in the event of a fire – are you complying with BS-5839-1?

Compatible with mini trunking, the clips are designed to prevent cables from falling in the event of a fire, helping to keep escape routes free and accessible.
