

CABLE CATCHERS

Cable Catchers are designed to elevate trailing cables off the floor, removing potential trip hazards from site.

Our range of solutions includes hangers for suspending from scaffolding and tray, hooks and patches for walls and ceilings.

Cable Catcher Patch Grade 1

- Designed for unfinished surfaces such as concrete, steel and timber.
- Holds up to 6 x 110v arctic cables
- Max load 2kg
- Heavy duty adhesive foam backing
- Space every 2 metres
- For application instructions see product / website

Cable Catcher Patch Grade 2

- Designed for finished surfaces – plastered / painted walls, drywall and glass
- Holds up to 6 x 110v arctic cables
- Max load 1kg
- Stretch off, damage-free adhesive backing
- Space every 2 metres
- Can be screwed to the wall if required
- For application and removal instructions see product/website
